

CUSTOM ENGRAVED STAINLESS STEEL TIE-ON CABLE/HOSE MARKERS

**PRODUCT
CMS**

Northern Signs Engravers range of quality, long life laser engraved 316 stainless steel tie-on cable markers are designed to be the convenient, bespoke solution for fast, permanent and cost affective marking of cables, hoses and small pipes – especially suitable for extreme and hostile environments.

Durable and non-flammable - resistant to most common organic solvents and acids.

Generous precision cut raised slots ensure quick and easy location of suitable standard cable ties for secure product fastening.

Clear legible, high contrast, bonded black marking of the stainless steel ensures enduring product clarity in a variety of testing applications.

DESCRIPTION

Custom laser engraved to your requirements – any numbers, text, graphics, bar / QR codes and data matrix.

Available in seven different sizes to suit a variety of required information layouts.

Standard customer data should be supplied in Excel spreadsheet format.

APPLICATION

Suitable for any extreme environments where durability is key.

SPECIFICATION

Produced in 316 stainless steel.
Temp Range -80 to 200 deg C+
